

Job title	<i>Installation Technician</i>
Reports to	<i>Project Manager/Energy Auditor – Energy Engineering Division</i>

About Us

Air Solutions & Balancing, LLC has been in business since 2002 headquartered in New Hampshire. We are a highly professional firm in the construction industry that places great emphasis on positive customer relationships with our never ending desire to please. We have enjoyed continued national growth over the past 15+ years due to our "yes we can" attitude that we offer our partners in the construction world.

We are the exclusive factory distributor in the U.S. of an energy efficient demand controls kitchen ventilation (DCKV) system for the commercial kitchen ventilation industry. Complementing our energy savings product installations, we are an independent national NEBB certified Testing, Adjusting and Balancing firm servicing the commercial HVAC industry.

About You

Responsible for the installation of our demand control kitchen ventilation product (DCKV). Duties consist of, but are not limited to, all areas of the installation process including our DCKV product, and plug and play cabling.

Essential Duties and Responsibilities

The successful candidate will be able to spearhead their work independently while still functioning in a team environment. The candidate will be expected to perform all of the duties listed, and other duties as assigned.

- Installation of the DCKV product into commercial kitchen hoods.
- Experience with HVAC, Controls, and VFDs preferred.
- Able to be a self –starter but also work well in a team environment for a fast paced, forward thinking company within the construction industry.
- Comfortable working a variety of shifts, including some night work as required by our customer's kitchen staff.

Qualifications

- Mechanical and electrical aptitude.
- Controls knowledge.
- Superior customer service skills.
- Able to demonstrate a high level of integrity and sense of pride in workmanship.
- Excellent written and verbal communication skills.
- Computer skills required (comfortable working with iPads).
- OSHA 10 or 30 hour training required.
- Must pass a driving record and criminal background check.

Benefits

- Ability to work out of your home from anywhere within the U.S.
 - Three weeks (15 days) paid earned time off (ETO) plus seven major paid holidays
 - 401k retirement plan, available after one year of full-time employment with 100% matching contributions up to 4% of your total wages. (more details available upon request)
 - Health insurance
 - Optional dental insurance
 - Optional disability insurance
 - Optional permanent life or temporary life insurance
 - Optional 24-hour accidental injury insurance
-
